

In northern part of Armenia, in Tavush Region, where already in 12th century Mkhitar Gosh founded an educational, religious and cultural Monastery Goshavanq, in September 2014, Dilijan International School (a full member of United World Colleges) will open its doors for the first applicants.

UWC Dilijan is a vibrant and dynamic coeducational international boarding school, located in Armenia, at the heart of the ever-shifting balance between the East and the West.

UWC Dilijan being one of 12 UWC schools in the world offers a globally regarded education to bright students from all over the world, striving to be a beacon of excellence and diversity in the region. The School's location in a host country where ancient cultures of the East and the West have been absorbed over millennia will create a stimulating environment shaped by the enduring balance of its values and traditions.

Zeppelin Armenia is proud that the United World Colleague trusts the

emergency power supply of the school-town in the world famous brand Caterpillar. So, the uninterrupted educational process will be provided by CAT 3516 BHD (2500kVa) generator set.

The first biggest turnkey project of Zeppelin Armenia has been realized thanks to strong support of Caterpillar, Zeppelin Power Systems GmbH & Co. KG in Germany and Zeppelin Power Systems Zeppelin Power Systems Russia LLC.
